

# Mustabshira Portfolio Template

Thank you for purchasing the **Mustabshira Portfolio Template**! This modern, fully responsive template is designed for developers, designers, and freelancers who want a professional online presence without starting from scratch.

## Features

- Fully responsive layout for **desktop, tablet, and mobile**
- Smooth animations using **WOW.js** and **Animate.css**
- Interactive sections: Home, About, Projects, Gallery, Contact
- Pre-built **portfolio demo** included
- Easy-to-edit **HTML, CSS, and JavaScript** files
- Well-structured and **well-commented code** for customization
- Downloadable CV section included

## File Structure

```
Mustabshira_Portfolio/  
|  
├── index.html           ← Main HTML file  
├── style.css            ← Custom CSS stylesheet  
├── js/  
│   ├── index.js        ← Custom JavaScript  
│   └── WOW.js           ← Animation JS  
├── images/              ← General images  
├── galleryImg/          ← Gallery images  
├── README.pdf           ← This file  
├── portfolio_demo.mp4   ← Optional portfolio demo video  
└── CV.pdf               ← Optional downloadable CV
```

## How to Use

**Open** `index.html` in your browser to view the template.

**Edit content:** Open `index.html` and replace text, images, and links with your own.

**Customize styles:** Modify `style.css` to change colors, fonts, or layout.

**Customize scripts:** Adjust `index.js` if you want to add interactivity or modify animations.

**Include your portfolio:** Add your own projects, images, or additional sections as needed.

## Notes

- All links in the template use **relative paths**, so you can move the folder without breaking functionality.

- Ensure that **images and assets** are in their respective folders to maintain layout and functionality.
- Demo video (`portfolio_demo.mp4`) is optional, included for reference.

## Support
